Physical Disability Handbook (*shintai shougaisha techou*)

This handbook is required for people with a physical disability to receive a variety of services. You must be evaluated by a prefectural certified doctor and receive a certificate of your disabilities, after which you may apply for this handbook.

Rehabilitation Handbook (*iryuu techou*)

Children with intellectual disabilities who wish to receive assistance must receive a Rehabilitation Handbook. If you qualify, you may receive a handbook after being evaluated at a prefectural consultation center or prefectural welfare center.

Intellectual Disability Handbook (*seishin shougaisha hoken fukushi techou*)

This handbook is required for people with an intellectual disability to receive a variety of services. You may apply to be evaluated at a prefectural mental health welfare center, and will receive this handbook if you qualify.

Welfare Services for Children with Disabilities

Visiting and Outpatient Services

Services for support at home and at social welfare facilities. There are benefits such as day service, short term admission, comprehensive support training for the severely disabled such as in-home care, visiting care for the severely disabled, action support, accompanying support, child development support, after school, etc.

Daytime Activity Services

There are services such as nursing care and training to support activities in the daytime at the facility. Nursing care benefits include medical care for persons with disabilities who need medical care and daily life care for persons who always need nursing care, and self-support training in the form of training and other benefits, etc.

Housing Support Services

There are nursing care benefits and benefits such as training at the place where you can't finish at the facility. Nursing care benefits include admission support in facilities and community life support in benefits such as training.

Delivery and Repair of Prosthetic Devices

Supplies and repairs of necessary prosthetic devices are provided to compensate for the physical disabilities of children and others and to facilitate daily life and life in the workplace.

Services and Supports for Persons with Disabilities (Medical Care for Rehabilitation, Medical Care for Raising Children, and Psychiatric Outpatient Care)

Medical Care for Rehabilitation

In principle, patients who undergo surgery to compensate for or reduce their disability receive 10% of their medical expenses.

Eligible Persons:
